C.G.: Could you please tell us about your childhood in Chile?
P.J.: I have good memories of my childhood in Santiago... At that time, my parents were working in a restaurant and my brother and I would go and spend time there after school. Their boss was a little grumpy but he would let us go in the kitchen and help my father. My grand-mother was staying with us because my grand-father died when I was 3 or 4 years old... [Pause, counts on his fingers] No, no, I was 2 when he died. So she was alone. She would take care of us and cook a lot.
